A Note from
Harbor President
Rob Hernandez

We cannot deny that summer HEAT is here. Although our wonderful Model As were high technology in the day, our modern cars provide a higher level of luxury. We often ignore the level of comfort we enjoy until we are reminded. A blackout is often the reminder and so is the current heat wave. My drive out to Phoenix was without drama or much thought even with the triple digit (118) temperature. (Cool compared to San Gavino...124). The drive in the Model A would have taken twice as long and would have been far less comfortable. Yet, the A would still be much better than the alternative of the day, a T or horse.

Take care of yourself while out and about. Sunblock, big brim hat, plenty of water. Most importantly, listen to your body. Out is the sun and not feeling well...get to a cool place and rest. Don't worry about sweating too much, it is when you stop sweating that is bad. Caffeine and alcohol dehydrate you so be aware of what you are drinking.

Stay safe and I will see you at the next meeting or on the road.

ROB

Editor's Corner
By Dick Wyckoff

I am a regular at the Friday afternoon car gathering at the old Ruby's parking lot in Redondo Beach. We get 300+ cars of all kinds show up. A really interesting display.

This last week, a collector of old farm equipment towed one of his "treasures" in for display. It was a harvesting thing of some sort powered by a Model A engine! The fun thing was it all worked. . . I took some pictures and you can see the early A engine. It actually sounded pretty good!

HARBOR AREA MARC/MAFCA BUSINESS MEETING

DATE: June 30th, 2023 LOCATION: Walteria Park Clubhouse, Torrance, CA

PRESIDENT: Rob Hernandez called the meeting at 7:30 PM. Rob asked for the approval of minutes from the May business meeting as appeared in the Harbor Light. Motion to approve by Weeg Thompson, second by Dick Wyckoff. All were in favor. July birthdays and anniversaries were announced. Rob said he really enjoyed the Lyon's Air Museum tour. Some concern over political attire. Rob reported the club is apolitical and does not support any candidate or parties. As such, members acting in an official capacity representing the club do not wear political attire or buttons. The club would oppose legislation which would lose our ability to enjoy and operate our model A's and other vehicles. Being a member of the club does not limit rights of members to have freedom of speech. As such, wearing of political attire by members participating as individuals is not restricted.

A Trip to the Flicks - The Sequel

On Saturday, July 15th, a dozen ladies from the Harbor A's enjoyed a matinee showing of *The Miracle Club* at the Rolling Hills 20 AMC Theater. Well, maybe 11 of us enjoyed the film. Fortunately, we actually remembered to take a picture this time. Participants included Donnis Bates, Phyllis DeCrescenzo, Pat Harrison, Dot Knott, Sandy Ragon, Ursi Schmidt, Linda Simpson, Ruxella Speights, Weeg Thompson, Daffy Wagner, Janet Winter, and Gloria Younkin. The movie follows the journey of four friends who take a pilgrimage to Lourdes, France, each in search of her own miracle. Based on the preview we had seen, we expected more laughs, but it was a heartwarming story and some of us shed a few tears. The scenery and photography were also impressive. As is our new tradition, and because this was a Harbor Area Model A Club event which means it is never complete without food, following the film, several husbands (Monty, Tim, Dennis, and Steve and his dad) met the ladies at Islands for "linner," late lunch/early dinner.

Because we had another good time, we are already talking about our next outing (unless we see a good movie that comes out sooner). We are planning to go see *My Big Fat Greek Wedding 3* sometime after it opens on September 8. Specific date and time will be announced closer to the time. Please come and join us!

The Star of the Day: Bread Pudding

On Sunday, June 25th, our theater-loving members had an outing to Long Beach to see a matinee performance of *Into the Breeches*. Before the show, we had lunch at Famous Dave's Bar-B-Que near the theater. Monty and Donnis Bates, Mickey and Bea Fruchter, Tim and Pat Harrison and a friend, Rob Hernandez, Cliff and Theresa LeFall, Dennis and Linda Simpson, Steve and Weeg Thompson, Peggy Wishon, Gloria Younkin enjoyed delicious barbecue, but the highlight of the meal, courtesy of Gloria, was a fabulous bread pudding. At the theater, Phil Bonneau and Karen, Gary Guttormson, Ursula Schmidt, Rob's son and girlfriend, and two friends of Steve and Weeg joined us for the show. The play about a play with women stepping into men's shoes during World War II was very entertaining, with lots of laughs as well as some touching moments. Definitely a feel good show.

Relay for Life Car Show

The Harbor Area Model A Club is not just a car club, but a community orientated club that likes to help others. On July 9th 2023 we had 9 Model A's and 21 members attend the Relay for Life Car Show. Relay for Life events benefit the American Cancer Society.

We started bright and early, meeting at Linda Simpson's house at 7 am where she provided a fantastic continental breakfast. With full bellies, we proceeded to the Redondo Beach Performing Arts Center at ~8 am for the car show. The volunteers at the show had "our" usual parking row ready for us.

After setting up, we all had a great time, enjoying the other cars, visiting with others and of course eating shared snacks brought by each attending member. We even met our new member, Steve Adams. All this while other show attendees enjoyed looking and learning about our 90+ year old cars.

To close the day, there was an opportunity drawing. We had some lucky members. Bobby D won 1 prize, Dick won 3 and the Thompsons won 2. In the end we were all winners by supporting a worthy cause fighting cancer. Everybody knows someone who has had cancer and we have many cancer survivors in our club.

MAFFI MUSEUM EXPANSION

After several months of planning the word is finally out. The following information was posted on the MAFCA web page on July 15, 2023.

"The Model A Ford Foundation (MAFFI) museum at the Gilmore Auto Museum complex in Hickory Corners Michigan is planning an expansion of the existing Model A museum. The museum opened in 2013 and is filled to the brim with Model A vehicles, exhibits, and interactive displays. More room is needed for additional vehicles and exhibits."

Please visit the MAFCA web page to read the remainder of this article. Do not skip the link information.

This expansion will be paid in its entirety by donations. More on this will reach MAFCA and MARC membership in the coming months.

Once upon a time! When Window was just a square hole in a room and Application was something written on a paper. When Keyboard was a Piano and Mouse just an animal. When File was an important office material and Hard Drive just an uncomfortable road trip. When Cut was done with knife and Paste with glue. When Web was a spider's home and Virus was flu. When Apple and Blackberry were just fruits - that's when we had a lot of time for family and friends. 🤣🤣🤣

Technical Talk

Clutch pedal freeplay

Have you checked your clutch pedal free-play lately? This is the first movement of the pedal where there is only a little resistance. According to Ford this is supposed to be 3/4" to 7/8" and can readily be adjusted by screwing the clutch link in or out of the trunnion.

The important thing is that you have 3/4" free-play, for without any, it has the same effect on the clutch and engine as riding the clutch pedal with your foot. You should not have your foot on the clutch pedal except when you are in the act of shifting gears.

What does riding the clutch pedal do to your clutch and engine you may ask? Simply this: riding the clutch pedal keeps a constant pressure on the clutch assembly and on the engine crankshaft as well as unnecessarily spinning the throw-out bearing. This could result in premature wear on the clutch faces and throw-out bearing. Even more serious, it may force the lubrication out of the rear main bearing babbitt thrust face causing the premature wear of the babbitt, resulting in end play of the crankshaft and damage to pistons, rings and other critical parts
