HARBOR LIGHT

A Note from
Harbor President
Dennis Simpson

The Second Gear Grind

I had an incredible time on the tour of SoFi Stadium in Inglewood. I even ate my first Hot Dog in ~ 15 years! As we look forward to 2024, the Activities Committee has more exciting adventures planned ahead for us.

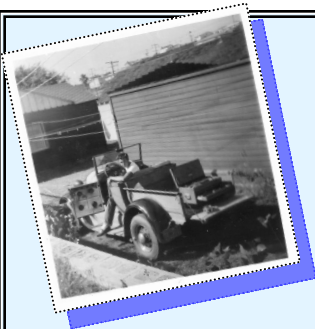

Continuing with the theme I mentioned last month in this column and I discussed at our last business meeting, Communication. I am trying to find better ways to communicate with our members. Through better communication, I believe we can increase the number of members that come to Club Meetings and join us for all the wonderful adventures that are being planned for 2024.

I sent out a test e-BLAST last week. I asked members if they received the e-mail to respond, letting me know they did. Unfortunately, less than half of the members that I sent e-mails to responded. Possible in their "Junk Mail"?

It is important to read your e-mails and our monthly "award winning" Harbor Light, as they may contain important information, i.e., change of meeting dates, location or another awesome adventure like the one we just had at SoFi Stadium.

Until next time, remember to respect one another. We are not better than anyone else, we're just on a different part of the path.

Dennis

**Editor's Corner
By Dick Wyckoff**

The wet weather we have been having here in So Cal let up for a few hours on Sunday, Feb 18th and 22 members of the Harbor Club were able to take a much anticipated guided tour of the new (4 year old) SoFi stadium in nearby Inglewood, Ca. Five Model As and a couple moderns made a short journey to the event.

I have never been so impressed with an architectural structure as I was at this venue. The hour and half walking tour took us through most of the venue. It was breath taking!

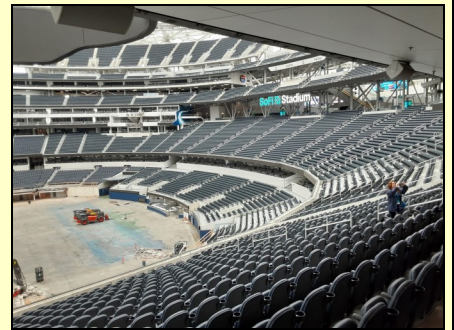

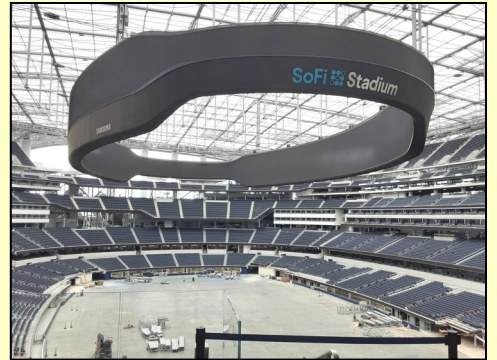

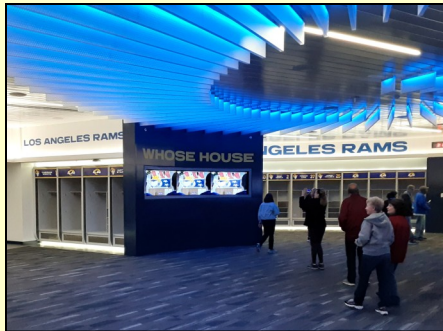

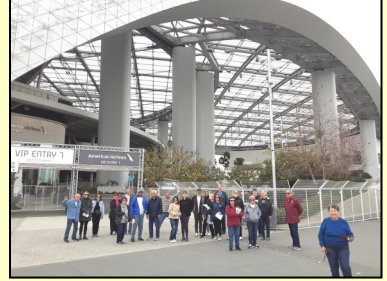

I want to personally thank Donnis Bates and her committee for arranging the tour. Unfortunately, Donnis was unable to attend due to family commitments. We missed you Donnis and Monty!

Looking forward to our annual Safety Check at the Gordinier's home. Always a fun event. See you there. . . .

Dick

[Saturday Morning Coffee Gathering is Alive and Well!](#)

If you are looking for a little tire-kicking adventure on **Saturday** mornings between 7 and 9AM, check out the Caffeine Cruisers at the corner of Artesia Blvd. and Hawthorne, in Torrance, CA. Several of the Harbor Model A club members and other car enthusiasts of all car types meet to talk cars. There are some very nice autos and some nice people there, too!

The address is 17400 Hawthorne Blvd., Torrance CA. (at Artesia Blvd.)

Come on by and get your weekend started in true So. California style.

[2024 Membership, Roster and Club Merchandise Items](#)

Jim Huizdos has a selection of new **Club merchandise**. We have hats, shirts, patches, t-shirts and we still have 60th anniversary items for sale at a discount. More to come. The updated **2024 Harbor phonebooks/rosters** are available from Ursi free of charge through e-mail. Club members that don't attend events can request a phonebook/roster by mail. Contact **Ursi Schmidt** at 310-561-4895. Make sure Ursi has your latest info. **Just a note:** We regularly update the roster. If you have any address changes, phone number changes or email changes, let Ursi know. Let Dick Wyckoff know, too. He'll put the info in the *Harbor Light*.

Technical Tips

Jim's Tech Tips

"Preventing Problems with the Starter Switch Rod"

The Starter Switch Rod passes through the firewall and screws into the Starter Switch. You step on the head of the rod to start the car.

You will find that today's reproduction rods screw quite easily into and out of the switch. This can be nice when you are assembling things.

But I have found on more than just a few cars the engine vibration can cause the rod to unscrew itself and back out of the switch. You hit a bump and the rod drops down and makes contact with the post on the starter switch, where the battery cable connects. **Yikes! That's a direct short to ground, with a LOT of amps behind it.**

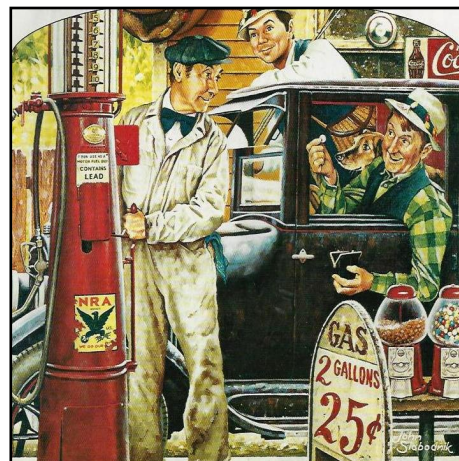

So you want to make the rod a bit harder to turn when installing it in the switch. Add a small drop of blue thread locker to the rod before you screw it in, or gently tap the threads a little with a hammer to deform them and make them harder to screw in and out.

Another simple solution, if you are not doing a car for Fine Point Judging (because it is not how the switch was originally done), is to add a 5/16" nut to the threaded end of the rod before screwing it into the switch. When you have the rod where you want it (desired button height inside the car, etc.) use that nut as a jam nut and lock the rod to the switch. It will not back out while driving, but you can easily undo it when you need to take it apart.

Whichever approach you choose, you will have have more trouble-free miles if you get ahead of this potential problem. Until next time...

SoFi, So Good

By Weeg Thompson

On Sunday, February 18, our club embarked on a tour of SoFi Stadium in Inglewood. The cloudy day did not dampen the spirits of the group of 24 members and guests as our dedicated tour guide took us throughout the stadium complex, including visits to the locker rooms of both the Rams and the Chargers, the broadcast booth, and the Owners' Lounge. We also passed through the Kinsey African American Arts and History Collection which is currently housed at the stadium.

The guide and a couple of different video presentations provided the group with background information about the building of the stadium and lots of interesting facts about the building, including how the stadium was built to withstand earthquakes (three separate sections that shift independently), why the field level is 100 feet below ground level (to keep the dome out of the LAX flight path), why the landscaping varies on different sides of the stadium (the stadium itself creates different biomes), and what special events are forthcoming at the venue (World Cup Soccer in 2026 and Olympics Opening and Closing Ceremonies in 2028).

There is currently no turf on the field level because it is redone every two years, and this is the year for the redo. They are also making some field upgrades for the World Cup.

We finished our tour with a lunch of standard stadium fare - hot dog, chips and a drink - and ate it in end zone seats for the full feel. We heard lots of positive comments about the tour and about what an amazing stadium SoFi is. A big thank you to Donnis Bates for organizing this tour for us. So sorry you and Monty weren't able to join us.

MAFFI Minute (Model A Ford Foundation, Inc.)

The Trustees are already planning Model A Days 2024! So far it looks like a candidate for the First Start Event (barn find which hasn't been run in a few decades) has been located. And, the report from the Gilmore Auto Museum is that one of the Event Centers will be finished in time for Model A Days, which will be nice for our Model A visitors.

Other news is that Model A's donated to the museum to be sold for the Model A Museum Expansion are getting checked over and repaired so they are roadworthy to sell. Our hardworking team of volunteers devotes Thursday evening to getting the Model A's in "sale ready" shape.

1. One Model A Tudor (1929) is on the sales floor already.
2. Another 1928 Tudor has had Trustees and friends repairing brakes, gas gauge, and a gas tank, to name a few, so it should be ready shortly
3. A 1929 Fordor Blindback is also in the queue for roadworthiness work.
4. And there are two 1928 Phaetons that we anticipate will be available to sell in the coming months.

Please contact Jerry Dennany, jerrydennany@gmail.com or John Begg, jwbegg@gmail.com for information about these cars or if you have a vehicle you would like to donate to be sold for our expansion fundraising program.

Many of you have been following our Save the Bus project (school bus) and although the bus has taken longer than we anticipated, things are coming along nicely now. The sides are up and all 4 fenders have been installed as well as the bumpers. There's lots of sandblasting, and just plain sanding and priming going on now. Things are getting exciting at Save the Bus Headquarters!

As always, we appreciate your support as we move forward with fundraising. It's all of you that make the Model A Ford Foundation Inc. Museum so awesome.

Cindy Ellenbecker, Model A Ford Foundation, Inc. Trustee/Secretary
