The Second Gear Grind

OMG!! By the time you read this it will be the end of September 2024 already.

In the last two weeks we drove our Model As to visit two local lighthouses, one at Point Vicente and one at Point Fermin. One of the great things about driving our cars is the pleasures it gives others.

Driving our Model A requires the nerves of steel these days in modern traffic, but seeing strangers smile and wave as you drive by makes the nerves worth it.

There could be a few reasons why stranger might smile and wave as you pass by in your Model A:

They find you physically attractive and are expressing a positive reaction. (LOL)

They are naturally drawn to and interested in the appearance of a car they have never seen before.

You're bringing back memories of their bygone years.

They recognize you, it's someone you know.

Whatever the reason, it always makes my day knowing I put a little "Smileage" on the Ol' Girl all while making another person's day a little brighter.

Till next time, remember, Let us get our cars out and spread the Smileage.

Dennis

WHAT HAPPENS IN THE

N THE GARAG

Editor's Corner By Dick Wyckoff

Just driving "Tootsie" around the block. . . .

After reading Dennis' article, I got to thinking about the times I drive "Tootsie" to the store or for a quick look at a So Cal

sunset a the local beach or just down the street to get a sandwich, people wave, honk their horns, drive along side and smile. The result is always the same. . . 'Love your car" or "What year is it?", or "How long have you had it", or my favorite. . . "Did you buy it new?

With all the stuff going on in the world, it is very rewarding to bring a positive event forward.

My church is having a 110 year anniversary party and people are asked to bring samples of their handiwork to show others. Most of this would be arts and crafts. I was asked to bring the Cabriolet! I guess it falls into the class of arts and crafts. . . .

I guess the message is "Keep driving those As"

Dick

Saturday Morning Coffee Gathering is Alive and Well!

If you are looking for a little tire-kicking adventure on **Saturday** mornings between 7 and 9AM, check out the Caffeine Cruisers at the corner of Artesia Blvd. and Hawthorne, in Torrance, CA. Several of the Harbor Model A club members and other car enthusiasts of all car types meet to talk cars. There are some very nice autos and some nice people there, too!

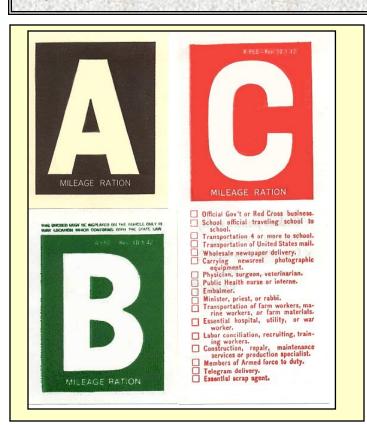

The address is 17400 Hawthorne Blvd., Torrance CA. (at Artesia Blvd.)

Come on by and get your weekend started in true So. California style.

2024 Membership, Roster and Club Merchandise Items

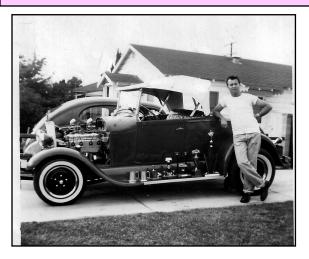

Jim Huizdos has a selection of new Club merchandise. We have hats, shirts, patches, t-shirts and we still have 60th anniversary items for sale at a discount. More to come. The updated 2024 Harbor phonebooks/rosters are available from Ursi free of charge through e-mail. Club members that don't attend events can request a phonebook/roster by mail. Contact Ursi Schmidt at 310-561-4895. Make sure Ursi has your latest info. Just a note: We regularly update the roster. If you have any address changes, phone number changes or email changes, let Ursi know. Let Dick Wyckoff know, too. He'll put the info in the Harbor Light.

A Look Back a Few Years.

At a garage sale a few weeks back, Dick Wyckoff was leafing through an unusual find. It was a 'Red Book National Used Car Market Report' dated October 3, 1946. It gave the going prices for used cars. It is like the 'Kelly Blue Book' used today. It included the usual cars seen today and several not in production any more, such as Hudson, Studebaker, Austin, Terraplane, Packard, LaSalle, and Graham. Further inspection found a section of the small book listing going prices for "old-obsolete-inactive models". In that section was the going price for a Model A Ford. Below is a copy of the page.

Remember, this was in 1946, only 15 years after the Model A was discontinued.

Note that the Model A cash value was \$70, and the retail price was \$105.

Model A Wiring Diagrams

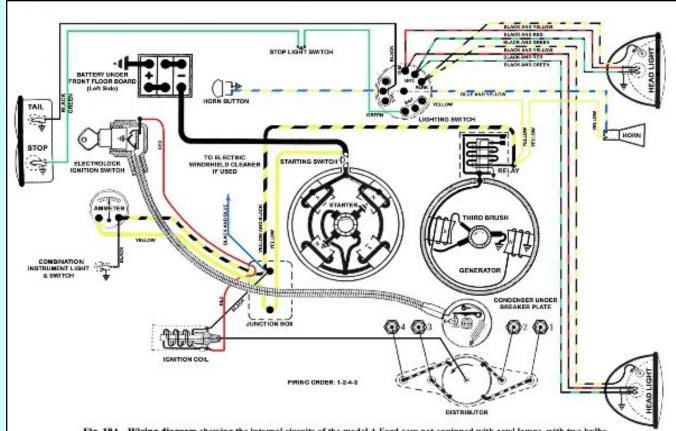

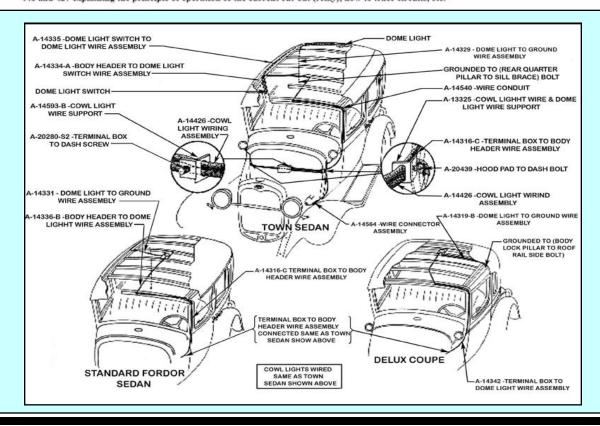

Fig. 18A. Wiring diagram showing the internal circuits of the model A Ford cars not equipped with cowl lamps, with two bulbs in each headlamp.

When starting to trace one of the several electrical circuits, begin with the positive (+) terminal of the battery or generator. The battery is the source of supply when the engine is not running, or generator is running very slowly. When the generator speed is increased to the point where its voltage becomes greater than the battery voltage, the relay points close and then the generator is the source of electrical current supply and also charges the battery. See *Dyke's Automobile Encyclopedia*, pages 332, 448 and 427 explaining the principle of operation of the current cut-out (relay), how to trace circuits, etc.

INTERNATIONAL FORD DAY CELEBRATION

On Saturday, September 14th, a baker's dozen of our Club members in five Model A's and one modern celebrated International Ford Model A Day with a lovely drive that started at the home of our President, Dennis Simpson, in Redondo Beach and ended at the Point Vicente

Interpretive Center and Lighthouse in Rancho Palos Verdes.

We stopped along the way for a photo op of our cars with the Pacific in the background. Once at the Interpretive Center, we enjoyed a picnic lunch (everyone brought their own) out on the grounds as well as a visit to both the Interpretive Center and the Lighthouse Museum (which is only open on the second Saturday of each month). The Center feature exhibits on the natural and cultural history of the Peninsula, including the Pacific gray whale. The Museum's exhibits include lighthouse lights, lighthouse information and aspects of the Coast Guard which manages the lighthouse.

It was a very pleasant day, well organized by our illustrious presi-

dent, and a great way to celebrate International Model A Ford Day.

MAFFI Monthly News

Model A Friends,

I usually write this message from my kitchen table in Wisconsin, but this message is about as close to live as you can get: I'm at Hickory Corners at the Model A Museum on the eve of Model A Days 2024!

The Trustee's, friends and family --- and the Grape A's Model A Club-- have been working out at the museum all day to get everything ready for tomorrow (setting up tables, tents, moving cars, cleaning and polishing). It's a bittersweet excitement because we usually work next to Trustee and Grape A member, Jerry Morrissey, who lost his battle with cancer a few short weeks ago and we miss him so much! He always headed up this day, so to not see his cheerful face is difficult.

But, on a brighter note, the attached photo is the expansion in progress. It's great to see what's happening after a year of fundraising! (Many thanks to all of you!) And, because it's the eve of Model A Days and the bus won't be unveiled for 24 hours, I'll have to wait with that picture until next month, but if you've been following the progress on Facebook, you know she's a beauty now.

Drive those A's and mark your calendar for next year's Model A Days (third weekend in September, the 19^{th} and 20^{th} of 2025), so you can see the museum expansion for yourself!

Ten Commandments for the Car Collector

- 1. Thou shalt not store thy cars out-of-doors, except for the wife's modern iron.
- 2. Thou shalt not covet they neighbor's car, nor his garage, nor battery charger.
- 3. Thou shalt not love thy cars more than thy wife and children; as much, but not more
- 4. Thou shalt not read thy "Restorer" on company time, lest thy employer make it impossible to continue thy car payments.
- 5. Thou shalt not despise thy neighbors Edsel, nor his DeSoto, nor even his Packard.
- 6. Thou shalt not allow thy daughters nor thy sons to get married during the holy days of the Old Car Swap Meets.
- 7. Thou shalt not deceive thy wife into thinking that thee is taking her for a romantic Sunday drive when, indeed, thou art going out to look at another Model A.
- 8. Thou shalt not tell thy spouse the entire cost of thy latest restoration, At least not all at the same time.
- 9. Thou shalt not promise thy wife a new addition to the house and then use it to store cars; Thou shalt not store Ford parts in the attic.
- 10. Thou shalt not buy thy wife a floor jack for her birthday.

A Little Bit of Automobile History

Mary Anderson: The Unsung Hero Who Invented Windshield Wipers

On a chilly New York day in 1902, Mary Anderson, a determined woman with a sharp eye for problemsolving, watched in frustration as drivers struggled to see through their snow-covered windshields. Inspired, she invented the world's first windshield wiper. Despite her groundbreaking design—operated from inside the car to easily clear away snow and rain—Anderson faced skepticism. Car manufacturers at the time failed to see its potential, but her invention would later become an essential safety feature for every vehicle. Though her name faded into obscurity, her impact lives on every time wipers clear a driver's view during a storm.
